

Diurnal Variability Working Group

Diurnal Variability Working Group

- Priority Discussion
- Brief Presentations
- Additional Discussion

Priority Discussion Topic

- Desired approaches/requirements for diurnally resolved SST
 - Provision of diurnal warming estimates
 - Temporal frequency
 - Representative depth
 - Direct provision of models/parameterizations
 - Provision of error characteristics for existing models and predictions

Brief Presentations

- Helen Beggs
- Sandra Castro
- Pierre LeBorgne
- Ioanna Kargali
- Gary Wick
- Chris Merchant
- Carol Anne Clayson

Additional Discussion

- DW requirements revisited
- TWP+ application plans
- Quality flags and DW
- Membership
